

AMENDMENTS TO THE SPECIFICATION

An attached substitute Specification includes changes to the prior version. This substitute Specification, which includes 7 pages, replaces the original specification, which included 6 pages (excluding claims, drawings, and the Abstract). A marked up copy of the Specification indicating the changes made therein is also attached.

The original Specification, Drawings, Abstract and claims support all of the amendments made to the Specification, which the Applicants believe is now in a format that is more clear. Thus, Applicants submit that no new matter has been added by the amendments to the Specification.

Attachment: Clean version of the substitute Specification

Attachment: Marked up copy of the substitute Specification showing changes
